3. Brake Proportioning Valve O Reilly Auto Parts

The **brake** proportioning valve controls the braking pressure between the front disc **brakes** and rear drum **brakes**. Since your front **brakes** generate up to 75% of the vehicle's stopping force, equal pressure can't be applied to all four wheels at the same time. The proportioning valve sends more braking pressure to the front and less to the rear.

4. The Best Trailer Brake Controllers and Why You Need One

The Curt TriFlex **brake controller** is one of the best **trailer brake controllers** you can buy. This **proportional brake controller** features a triple-axis accelerometer, nine levels of braking...
